

ValTan

Your digital elite

Company Profile

ValTan LTD is a local company based in Rwanda with innovative solutions based on educational and business challenges along the whole East Africa Community which houses more than 150 million. Our several initiatives have eyed on different groups of people in our large community, **Hands On Click** is an initiative for promoting the penetration and usage of ICTs in education sector whereby since 2013, We managed to equip more than 1,000 teachers with brand new connected laptops with educational tools in partnership with Data Systems under GiraICT project and the same practice for students in a big number of more than 5,000 laptops. **Hand On Click** has two parts:

Infra: Is a part of infrastructure, whereby we put much efforts to see how students, teachers and schools can have access to computing tools, applications and internet with partners.

Ski: Is the second part whereby we still have gaps in skills development there are cases where students, teachers are equipped but lack of digital skills made a misinterpretation of ICTs presence in education sector, ValTan is working with international organizations such ICDL and Microsoft to fill that gap by providing digital skills trainings in schools with international recognized certificates to make the available infrastructure to be fully utilized efficiently.

SERVICES

**Your
Educational ICT tools provider**

About us

ValTan LTD is a company registered under the law of The Republic of Rwanda since 2012, started with a group of 7 young entrepreneurs with an emphasis on IT through a popular project called GiralCT which has played a vital role in the penetration of ICT devices in schools, business and Individuals as well. In the beginning of 2013 ValTan decided to run GiralCT jointly with Data Systems LTD, an IT company based in Rwanda with branches in Rwanda, Burundi and Ghana. Data Systems currently owns GiralCT after ValTan pulled out its shares from November 2014. ValTan maintained the focus to serve mainly the education sector by initiating innovative solutions and reinforce the strategies referring to challenges faced in the implementation of previous projects with different partners, the business environment is also our area of interest by enabling corporates to use modern technologies in service delivery.

ValTan LTD is a company with 4 years of experience in the IT sector and one of the first companies of young entrepreneurs mentored and uplifted by kLab to the extent of making more than \$ 5,000 per month in 2013 before leaving the incubation center, kLab is an incubation center which houses young entrepreneurs especially the ones in tech sector.

From dreams to reality the man behind this young entrepreneurs' success story called Alphonse Twagirayezu Ruhigira the founder of ValTan LTD and GiralCT with a team of 5 young brilliant innovators who have shifted to big companies in the country, Pius ABIJURU, Emile HITIMANA, Leon Gervais TUYISHIME, Gervais NDACYAYISABA, Clement MUHIRWA and Peter ABIJURU. The dream team was led by one of the most influential girls in ICT business environment in Rwanda Nadia UWAMAHORO.

ValTan LTD once again is a mature and innovative solutions provider in

IT market, which is ready to give out the best to clients through different an equally services we are offering, come all and meet a World of experience under one roof.
